

STETSON HAT EXHIBITION EXTRAORDINARY

Interesting and Educational, Showing Different Stages in Hat-Making—One of the greatest Hat Displays Ever Made

If you have never been through a hat factory you have no idea how interesting, how much there is to the making of a hat.

This wonderful exhibit presents the fourteen operations in the making of a Soft Hat—and the sixteen operations on a Stiff Hat. It shows how the elegant imported furs look before and after they are treated, and how the cut fur is made into felt—how a hat looks before it is shrank, and afterwards—how it is blocked and shaped—the whole process from "A to Z."

OPENING SESSION

Of the Mason County Teachers' Institute Held Yesterday in the Sunday School Room of the Third Street M. E. Church.

The opening sessions of the Mason County Teachers' Institute were held in the Sunday School room of the Third Street M. E. Church yesterday.

The opening speech of the morning was delivered by Rev. J. M. Lital, pastor of that church. Rev. Lital, having been a teacher himself, was thoroughly in accord with the meeting and his remarks were well received.

Miss Marian Noland, former teacher in the Eastern Normal School, who will teach at Lewisburg this term, then gave a short talk on the work she expected to introduce before the Institute.

Prof. E. L. Dix of Mayslick addressed the Institute, demonstrating a plan to establish a Mason County School Journal.

The afternoon session was taken up with a demonstration of wound dressing by Miss Kellogg, the Mason County Health Nurse. Miss Kellogg greatly impressed the teachers present with the necessity of being prepared for accidents and urged each one to fit themselves in their school for such.

AITKEN WINNER AT CINCINNATI

Cincinnati, Ohio, September 4—Johnny Aitken assumed a lead over Dario Resta at the 168th mile and won the first annual 300-mile sweepstakes at the new Sharonville track today. Wilbur D'Alene was second, while Frank Galvin, far behind, drew down third money.

One accident marred the day's sport. Gilbert Anderson while in the stretch run on the 168th mile, skidded and dived into the fence. His car turned turtle and he was dangerously injured. His mechanical, Bert Shields, suffered a fracture of the thigh and internal injuries and his recovery is doubtful.

Aitken's time for the race was 3 hours, 3 minutes and 37 seconds, an average of 97.8 miles per hour.

Ralph DePalma broke a connecting rod in the eleventh mile and had to retire. Numerous other starters had engine and tire trouble and were forced to retire.

Dario Resta was third up to the 294th mile, when he encountered engine trouble and had to quit the race.

ATTRACTS BUSINESS MAN

Mr. Hughes has not tried to scare anybody, but has merely portrayed the errors of the present Administration and set forth certain principles on which the affairs of the country should be managed in the future.

There is a political logic in this portrayal, the culmination of which in the mind of the voter is expressed by the frequent remark:

"He is the kind of man we want to steer us through."

This has been said by many a business man. The qualities seen in Mr. Hughes are poise, a strong, sane mind, sincerity and a willingness to sacrifice life, physical or political, to the good of the country. Nor is there any question as to the quality of nerve to meet the emergencies of the four years beginning March 4, 1917.

Mr. Richard Honican has returned to this city after a three weeks' vacation spent in Lexington, Ky.

The gauge marks 5.2 and stationary this morning.

The Greenland will pass up for Charleston and the Greenwood down for Cincinnati sometime today.

WATER MAIN BURSTS

The water main at the corner of Houston avenue and East Second street burst this morning at 7:30 o'clock. A stream of water was shot over the home of Mr. Henry Shea on account of the great pressure. Car traffic was stopped for some time until the main could be repaired.

ARE MEDICINES LIQUORS?

A certain class of prejudiced and jealous doctors call patent medicines only alcoholic beverages. They will tell you that such and such a medicine contains as much alcohol as a glass of beer or a certain quantity of whiskey; but they do not mention that the beer or whiskey is swallowed at one draught, while only a small quantity of the medicine is taken at one dose. At the same time they will use alcohol quite as freely and many in four or five times as great proportions in their own prescriptions.

Such standard remedies as Lydia E. Pinkham's Vegetable Compound use barely enough alcohol to preserve the root and herb extracts, too little to have injurious effects; and the medicine can be had, if desired, in a non-alcoholic form.
